Dear Ms. McBride:

On behalf of Pershing High School, I want to express my appreciation to you for your assistance during the recent crisis we experience with the NCAA Clearinghouse.

Your calculated, rational and prompt attention to our situation truly made the difference. Although Pershing provided all the necessary information that the clearinghouse needed to review and make a decision on the situation, you were the key to success. Without your assistance our student athletes would have missed the opportunity of a lifetime. Shelia, your demonstration of professional commitment and skill to your work are exemplary. Your knowledge of the process for having athletes cleared through the clearinghouse, your care and concern for the individual athlete and your contacts with the clearinghouse are invaluable assets.

The assistance of GradeCheck is extremely important to our school district in its ongoing efforts to help prepare our students-athletes for collegiate athletics. Your help during this time will be long remembered. Again, I thank you for providing your services to our school and look for to continuing our relationship with your company.

Sincerely,

Stacia M. Pettus
